Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	PEP-8 compliant indentation used throughout the project.
2	Proper File Structure	Files and folders are logically organized	Yes	Backend, frontend, services, and tests are organized into separate folders.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Variables and models use descriptive names.
4	Function / Method Names	Functions are descriptively named	Yes	Functions are clearly named according to their purpose.
5	Code Comments	Inline and block comments explain logic	Partial	Important modules are documented, but more inline comments can be added.
6	Modular Design	Code is split into reusable functions/modules	Yes	Features are split into reusable service modules.
7	No Redundant Code	Duplicate or unused code is removed	Yes	Duplicate code has been minimized
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Exceptions and API failures are handled gracefully.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Event Analyzer	Python, DistilBERT	Theme extraction service	High

2	Topic Generator	Python, GPT-2	Conversation generation	High
3	Fact Checker	Python, Wikipedia API	Information verification	High
4	History Logger	Python	Conversation storage	Medium
5	Feedback Logger	Python	Feedback management	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-organized project structure.
Readability	4	Easy to understand and maintain.
Reusability	5	Modular and reusable components.
Documentation / Comments	4	Adequate documentation with scope for more comments.
Overall Score	4.5/5	Clean, modular, and maintainable codebase.
