Project Name	Personalized Networking Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student or professional attending a networking event.	Start meaningful conversations with new people.	I don't know how to begin the conversation.	I lack knowledge about the event topics and common interests.	Nervous and unprepared.
PS-2	A networking event attendee.	Understand what topics are important in an event.	Event descriptions are long and difficult to analyze quickly.	There is no tool that summarizes key themes automatically.	Confused and overwhelmed.
PS-3	A student or professional networking with others.	Discuss current topics confidently.	I am afraid of sharing incorrect information.	I cannot verify facts instantly during a conversation.	Anxious and hesitant.
PS-4	A frequent networking event participant.	Remember previous conversations and useful discussion points.	I forget important details after the event.	I don't have a system to store and track networking interactions.	Frustrated and disorganized.
